**Before you were born you changed my life,  
Changed my mind and changed my sight.  
It’s all so clear now**

**I watched you grow inside my love,  
Angels descended from above  
You move my soul now**

**On the day you were born  
I saw something that I never saw before  
It was so surreal**

**Now that you’re here and now that you’re with me  
I will care for you all my living days  
I promise too now**

**There is nothing to compare in the world  
To my love for my little girl, my baby girl**

**Beautiful Baby your life stirs me like the stars  
Beautiful Baby, Beautiful Baby**

**Your life moves me like the moon**

**Your life warms me like the sun**
