

"Come On"

by David McDougald

© 2002

**People are dying
Cause people are killing each other
There ain't no sense in that kind of behavior
Live for love and love for life together**

Come on now people get it together

**People we gotta live in this world together
Share all your love
With your sisters and your brothers
Love, respect and peace for one another
It's the only way we'll survive
in this world together**
