

"Flower"

by David McDougald

© 1999

**You move the earth and plant your flowers
Then you pray for it to rain
Shower with light and love and kindness
Beauty emerges in its time**

**I wish to be the flower in your garden
Eternally**

**Your blossoms bloom reaching skyward
As the fragrance fills the air
Autumn come we'll reap the harvest
Will you plant next year**

**I wish to be the flower in your garden
Eternally**

**Never let me wilt or wither
Stay with me
Take care of me
Shine you light on me
Grow with me**
