

"Imagine Peace"

by John Welton

© 2008

**There's a tower of light in Iceland that shines into the night
Imagine Peace when you see it in your mind's eyesight
Radiating inspiration for all of mankind
The future is love, leave hate behind**

**Ripples of Peace become the tides of change
Wash away fear and love remains, only love remains**

**Express love to the universe, shift the axis of the earth
Hold the light in your heart, imagine peace
Hold the light in your heart, imagine peace**

**Help the wishing tree grow, bask in the glow
Imagine Peace**

**There's a tower of light in Iceland that shines into the night
Imagine peace when you see it in your mind's eyesight
Radiating inspiration for all of mankind
The future is love, leave hate behind**
