

"My Family"

by David McDougald and John Welton

© 2000

I wish my uncle was Art Garfunkel
Or maybe Paul Simon just to keep the lines rhymin'
And if my brother was a brother from another land
It would be Bob Marley because he is a righteous mon
If Lennon & McCartney were my cousins
We would give peace a chance and eat a glass onion
If Louis Armstrong was my grandpa
What a wonderful world it would be

Suddenly it occurs to me
That we're all one big family
Singin' the same song
With a universal melody

And if Aretha Franklin was my momma
The depth of my soul would have no end
And if Janis Joplin was my sister
We would cruise the clouds in her Mercedes Benz
And if my great-grandpa was Jerry Garcia
We'd take a long strange trip to some dark star
And if Frank Zappa was my pappa
He would tell me to shut-up & play your guitar

Suddenly it occurs to me
That we're all one big family
Singin' the same song
With a universal melody
