**Peace & Love & happiness  
We all get together  
We just can't miss  
We need to understand  
That we're all the same  
From the people that are homeless  
To the ones who have the fame**

**Peace & Love & happiness  
Need it more than ever  
If hates to be dismissed  
Started as a thought  
Then became a dream  
The courage and the passion  
Of the people on the scene**

**Peace & Love & happiness  
And all that is  
We need a little balance  
If life is to be lived  
What goes up  
Must come down  
Principles and standards  
Need to come around**
