**It seems that we have come full circle  
We could hardly do more than pretend  
The time we spent was something special  
I never really wanted it to end**

**Life has a way of going quickly  
Something we don't understand  
We hold ourselves back more than life could ever  
Hold us back and now I see the truth**

**I never took the time to listen  
You never really showed your despair  
Maybe things between us could have been different  
Maybe we could have been closer friends**

**I'm glad that we could get together  
I'm glad that we could make amends  
I thank my lucky stars we cared enough to take the  
Time to build, the love we had.**

**Sail on...**
